Seeking full-time SDR/BDR role at a B2B SaaS company | Available August 2027 | Open to NYC / SF Relocation

EDUCATION

UNIVERSITY OF DENVER Denver, CO

Business Information & Analytics Major | Finance Minor *Sep 2023 – June 2027*

Cumulative GPA: 3.47 | Major GPA: 3.82 | Dean's List

Relevant Coursework: Data Analytics, Statistical Analysis, Data Mining & Visualization, Data Warehousing, Financial Reporting, Financial Decision Making, Introduction to Marketing, Project Management

EXPERIENCE

UNIVERSITY OF DENVER ATHLETICS Denver, CO

Inside Sales Representative | Athletics Ticket Sales | Season Campaign *Feb 2026*

- Made 250+ cold calls during a week-long season ticket campaign, personally closing 8 packages as part of a team that grew season ticket holders 17%
- Tailored talk tracks to three personas (alumni, families, past single-game buyers), using consultative discovery to handle commitment objections before closing

Goalie, NCAA Division I Women's Lacrosse *Sept 2023 – Present*

- Converted 5/5 assigned recruits to commitment by pitching the program's value to prospective athletes and families at recruiting events
- Balance 20+ hrs/week of D1 training with a 3.82 major GPA and consecutive Dean's List terms

PROJECTS

Clay Networking Flow | Personal Project *September 2026*

- Built a prospecting pipeline in Clay sourcing 4,400+ sales professionals and recruiters across 600+ B2B SaaS companies, filtered by industry, title, and company size
- Used Clay's AI (Sculptor) to add a qualification column flagging new-grad hiring, narrowing the list to ~340 high-priority contacts for outreach

Reed Vocabulary App | Personal Project | Claude Code, Supabase, Stripe *April 2026*

- Built a working full-stack prototype in one week using AI-assisted development (Claude Code), with user auth, a Supabase database, and Stripe payments
- Designed a B2B2C go-to-market strategy targeting schools as the buyer, with teachers as the entry point and students as end users
- Structured a freemium pricing model with affiliate revenue streams, mapping how free users convert to paid tiers

Nike Sales Dashboard | University of Denver | R, Tableau *March 2025*

- Cleaned 10,000+ rows of sales data and built regression and random forest models in R to predict revenue by price, region, retailer, and channel
- Identified region as the strongest revenue driver; built a Tableau dashboard tracking KPIs and geographic performance
